all in all its a okay game to play. I liked this game it worked well good graphics.... until vr mode was disabled...I will purchase this game again if the vr mode is returned because I think it has a lot of potential... This game is scary as hell. If you are bored of all of your other games and you need a pinch of horror and survival, this is it.
I would rather pay \$2 for the game than 10 but oh well. Sadly the graphics and lack of updates really is a negative.

Good game. Only complaint is that more effort should of been put into the map. Some areas look identical.. A very fun, simple game. The boss battles could have been a bit more imaginative, and they can be frustrating at times (you'll see when you play). Minor issue with high screen resolution, giving me a black bar across the upper part of the screen, but never missed anything important.

Racking up the kills with a high fight gauge is highly satisfying!. 9/11 made me suicide with a knife i rate this game best game 50/50 clicking simulator 2016 kek #weed. hey i love this game but i have a problem in part 2 the bull is at the light so i can't run to the light can you fix this pls?. [PIG] <(O@O)> uses this so should you ! Nova to the face suckaa !. Commercial is the scheme maybe to some people.It is a very fun game and nice storyline the follow.I would highly recommend people giving this game fair chance if you like storyboard games.. Bridge building, ported game.

It's a port?

It's a port so what. It hold itself up and it is a nice casual game and fun.

Recommend?
